60,000 m² of high quality modern multi-user warehouse capacity spread across five national facilities –

Sydney > Melbourne > Brisbane > Perth > Adelaide

AirRoad Logistics provides comprehensive, integrated services and facilities across Australia to clients requiring operational management support with their supply chain including warehousing, inventory management, order picking, assembly and consolidation, returns management and delivery.

Our service is:

- > tailored via systems, solutions and processes to suit individual client requirements
- > scalable to meet growth and peak period demands
- > agile when needed for late changes or unexpected interruption of services
- > able to handle high volume and multiple delivery channel requirements via our owned distribution service

In Logistics, as in all areas of our business, we exceed client expectations – giving them peace of mind. Attention to detail is crucial, as are getting it right the first time, every time, being as productive and efficient as possible and communicating throughout the process.

The AirRoad Logistics team is committed to providing personalised service, has a wealth of experience and collaborates with clients to develop a tailored supply chain service that makes doing business easy. Our people know the AirRoad Logistics operation inside out and their mindset is to anticipate problems, solving them before they truly emerge.
